About Odeur Studios

A brief history

Odeur was founded by Art director and Designer Petter Hollström in Stockholm in 2006 as a brand experiment. By replacing the traditional word-based logotype with a brand specific scent that is infused in the garments, Odeur was able to become the label with a non-visual logotype. The scent is described as white, clean and light. The triangular shape often used to brand the collection represents the construction of the scent – with a base note, middle note and top note.

The collections are developed drawing from a wide range of inspirations. Elements incorporated are always present in our direct surroundings, including musical, contemporary art, film and architectural references. Odeur embraces such open interaction through its uni-sex and multidisciplinary approach towards design.

Today Odeur is designed by Petter Hollström and Gorjan Lauseger and has spread to over 20 countries, selling clothing, jeans, outerwear, footwear and accessories. From 2013, the newly conceived, effortlessly clean quality accessory line Odeur Artefacts, have been added to the brands portfolio.

Odeur Studios

A/W '18 — 'Synthetic Series'

Separate spheres in harmonic synthesis. The cliché of two different worlds melting to one.

For the Autumn/Winter '18 season, Odeur Studios introduces bold shapes, lush cashmere wools and bright contrasting colours. All aligned with the Odeur Studios aesthetics that we have been familiarized with over the past decade. The Winter collection offers playful silhouettes – oversized – but in an updated manner. Balance can be found in the interplay of lengths, dimensions and witty flow of the garments. This functional layered look enables wearers to freely add or strip away items, adding onto the collection's interactive overall feel.

This season Odeur Studios proudly introduces synthetic padding from Primaloft in outerwear, a fully functional and cruelty free alternative to down feather padding.

The surface exterior is composed of fine jersey, fine wool, cashmere and technical shells. These are maintained in understated tones of black, bone white, hues of grey, contrasted by a dash of brave dijon yellow and deep purple plum. Patterned element prints and embroidered collection artworks further underline the sense of fresh agility, fully aligned with the collection's curious nature.

This is Odeur Studios A/W '18. This is Synthetic Series.
